**WORKS GREAT!!!**

## Recommended Usage

<u>APPLICATION</u>	<u>RATIO OF DILUTION</u>	<u>INSTRUCTION OF USAGE</u>
GARAGE DRIVEWAY SHOP	Concrete or Asphalt (Full Strength)	Clean excess oil from surface, Spray Oil Lift™ onto spilled oil/grease, Wait for at least 5 – 15 minutes. Keep area wet with water while area is soaking. Scrub affected areas, hose with water Mop spent oil/water & rinse. Throw waste water on grass or gravel. <b>Caution: asphalt may have been damaged by oil spill-gentle cleaning</b>
CAR TRUCK VEHICLE	Add 20 parts water – 5 for severe grime build-up <ul style="list-style-type: none"> <li>• Engine : 1: 3</li> <li>• Wheels : 1: 3</li> <li>• Tools : 1: 5</li> <li>• Carpet stain : 1: 3</li> <li>• Windows : 1: 20</li> </ul>	Pollution build-up on vehicles requires constant maintenance. Alkaline and caustic cleaners attack the car finish. As well, detergents produce limited results. <b>Oil Lift separates the oil and suspends the dirt without damaging the surface.</b>
BOATS DECKS & BILGES	1: 3 up to 1: 15	Spray area to be cleaned, Wait for 5 – 10 minutes, brush Lightly, Hose with water
HOMES GENERAL HOUSEHOLD	1:10	Oil Lift™ can be used to replace other general purpose cleaners around the home – windows, walls, cupboards, bath tubs, sinks, grout, etc – safely and without damage to the environment when flushed down the drain – and without smearing or leaving a residue. Simply spray on diluted Oil Lift™ and wipe.
FLOORS IN GENERAL	Initial clean 1: 4 Subsequent cleaning 1: 10 up to 1: 20	After a first deep cleaning at a dilution of 1 to 4, dilution can be increased for subsequent applications.

BATHROOM TILES TUBS  FAUCET WALLS	1:5  1:5	Best to spray when showering is done – steam softens wax residue left by soaps & shampoos, Wait for 10 minutes, scrub and rinse.
KITCHEN	<p><i>Tiles and Counter Top Tiles – Full Strength Up to 1: 6</i></p> <p><i>Exhaust Vent, Hood &amp; Filter, Stove Top, Grille – Full strength up to 1: 3</i></p> <p><i>Oven, Barbeque Grille – Full strength up to 1: 3</i></p> <p><i>Corning Wares, Pots &amp; Pans, Baking Tin, Steamer Basket – Full Strength up to 1: 3</i></p> <p><i>Faucet, Sink – 1 : 5</i></p>	<p>Spray area to be cleaned, Wait for 10 – 15 minutes, Lightly brush( especially grout) Wipe with wet towel/rag</p> <p>Spray area to be cleaned, Wait for 10 – 15 minutes, Scrub brush under tepid running water Stickiness due to grease and oil is eliminated completely.</p> <p>Spray area to be cleaned, Wait for 10 – 15 minutes, For baked grease or oil, use scrub brush.</p> <p>Spray directly or “soak”, Wait for 10 – 15 minutes Scrub affected surfaces, Rinse with tepid water</p> <p>Spray area to be cleaned. Light scrub brush Wipe with wet towel/rag</p>
CARPETS	<i>Stain Removal &amp; Steam Cleaning – 1 : 5 parts water</i>	Spray heavily affected area, gently brush with brush, Wipe with absorbent cloth
VENETIAN BLINDS	1 : 10	Spray directly, Wait for 2 minutes Wipe with damp/moist absorbent cloth
CLOTHES	<i>Add 50ml to 1 full load</i>	Even delicate ones to remove oil based stains <b>NOTE: Do not use with Laundry Soap</b>
LINENS PLACE MATS TABLE CLOTHES	<p><i>Stain Removal – Full Strength</i></p> <p><i>Laundry in General – 1 cup to 1 full load</i></p>	<p>Spray affected area, Wait for 10 minutes Wash regularly</p> <p><b>Note: There may be some stains that it cannot remove like mustard .....</b></p>
FIRE PLACE GLASS DOOR	1: 5	Spray glass, Wait for 15 minutes Wipe with paper towel
RUNNING SHOES SNEAKERS	1: 5	Spray dirty running shoes, Scrub brush Rinse/wipe with dry cloth
COMPUTER PRINTER HOME APPLIANCES	1: 20	Use Oil Lift like regular cleaners
PRE-PAINT SURFACE PREPARATION	1: 5	Spray areas to paint Wipe with damp/moist absorbent cloth
WALL PAPER REMOVAL	1: 10	Spray wall paper Watch as paper peels off from wall

**Note: Ratio provided above is just guidelines. Feel free to experiment. If there are other uses not mentioned on the above list, please let us know so we can add them to list.**
